

THAT THEY MAY BE ONE

*What a mantra!!!
To be recited not but
To taste and be rooted
Not easy but possible;
Not lukewarm but radical
Yes, that they may be One.*

*One in suffering
One in justice
One with creation
One with God
One with poor
That they may be One.*

*One for solidarity
One for freedom
One for shared leadership
One for “alternative power bank”
One for peaceful world
That they may be One.*

*One in gratitude
One in compassion
One in vulnerability
One in collaboration
One in danger
One with Divinity.*

*One against injustices
One against discrimination
One against supremacy
One against casteism
One against separation
One against environmental destruction*

*One against political pressure
One like a Beehive in
believing and collaborating
for the common good.*

*One in many opinions
One in many viewpoints
One in many colours
One in many cultures
One in many nations
One in many ethnicities
One in many languages
For a better and just world.*

*Let us have life in One
Let “One” be our liberation song
We are One, One in us
Thus, we will have life in fullness by
Being and Becoming One
by the power of the
life energy, divine Love
and faithful sacred companion
called **Holy Spirit!***
